

QWIKSMART TOUCH 7

• 2-Wire • Touchscreen • Access Control & Intercom

Product Overview:

The Qwiksmart Touch 7 is a touchscreen door station designed for STR's Qwikbus 2-wire systems, combining video door entry and access control in a single unit. With integrated touchscreen operation and network connectivity, it is well suited to modern residential and commercial buildings, supporting both new installations and system upgrades.

Key Features:

- ▶ 7" capacitive touchscreen interface
- ▶ Full HD camera (1920 × 1080)
- ▶ 2-wire Qwikbus system
- ▶ RFID and PIN access control
- ▶ Supports up to 2,000 users
- ▶ Wi-Fi and network connectivity
- ▶ Proximity screen activation
- ▶ Flush or rear-mounted installation
- ▶ Tamper contact present (not active)

Kit Contents:

- ▶ Qwiksmart Touch 7 door station
- ▶ Mounting accessories
- ▶ Power supply (if required)
