

ROBUSTO IP

• IP Video Door Station • Stainless Steel • Vandal-Resistant

Product Overview:

The Robusto IP is a flush-mounted IP video door station designed for small to medium entrances requiring a durable and professional solution. Operating over a network-based system, it provides video communication and access control within a single panel. Built for both new installations and system upgrades, it is well suited to residential and commercial applications where a robust, stainless steel entrance panel is required.

Key Features:

- ▶ IP video door station for network-based systems
- ▶ Flush-mounted stainless steel front panel (2 mm)
- ▶ 2 MP HD fisheye camera with infrared illumination
- ▶ Integrated speaker and microphone
- ▶ IP65 rated for external use
- ▶ PoE or 12 V DC power options
- ▶ 2 relay outputs for door or gate control
- ▶ Supports up to 2,000 users

Kit Contents:

- ▶ Robusto IP door station
- ▶ Flush-mount backbox
- ▶ Mounting accessories
