

ROBUSTO IP TDM (TOUCH DISPLAY MODULE)

- IP Video
- Touchscreen Directory
- Vandal-Resistant

Product Overview:

The Robusto IP TDM is a flush-mounted IP video door station combining a touchscreen directory, access control and mechanical call button within a single unit. Operating over a network-based system, it provides video communication and flexible entry management. Designed for both new installations and system upgrades, it is well suited to residential and commercial applications requiring a modern, integrated entrance solution.

Key Features:

- ▶ IP video door station with integrated TDM interface
- ▶ Touchscreen directory for resident access
- ▶ RFID and PIN access control
- ▶ Mechanical call button with replaceable nameplate
- ▶ 2 MP HD camera with integrated audio
- ▶ 2 mm stainless steel front panel
- ▶ IP65 rated for external use
- ▶ PoE or 12 V DC power options

Kit Contents:

- ▶ Robusto IP TTRIP-TDM door station
- ▶ Flush-mount backbox
- ▶ Mounting accessories
