

ROBUSTO AUDIO

• 2-Wire • Stainless Steel • Vandal-Resistant

Product Overview:

Robusto audio door entry panels are stainless steel units designed for durability, security and reliable audio communication. Built on STR's proven 2-wire Qwikbus system, they are suitable for both new installations and retrofit projects. Available in a range of configurations, they are ideal for applications from single properties to multi-occupancy buildings.

Key Features:

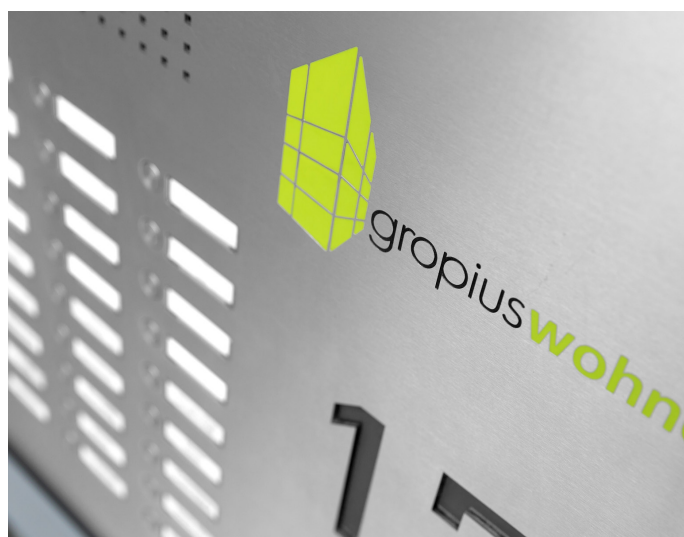

- ▶ 2-wire Qwikbus system for new and retrofit installations
- ▶ 2mm stainless steel vandal-resistant front panel
- ▶ Flush-mounted design for reduced tampering
- ▶ Puncture-resistant speaker grille
- ▶ Clear and reliable audio communication
- ▶ Configurations from 1 to 16 call buttons
- ▶ Surface or flush mounting options
- ▶ Available in multiple finishes (Stainless Steel, Gold and Vintage)

Kit Contents:

- ▶ Robusto stainless steel audio panel
- ▶ Audio handset(s)
- ▶ Power supply unit
- ▶ Mounting accessories

Technical Summary:

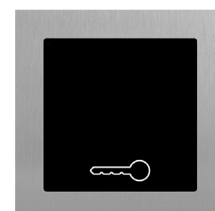

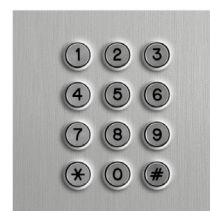

Specification	Details
System Type	Audio door entry
Wiring	2-wire Qwikbus
Configuration	1-16 call buttons
Mounting	Surface or flush
Construction	2 mm stainless steel panel
Power Supply	Dedicated PSU
Finish Options	Stainless Steel, Goldstar, Vintage

Optional Integrated Features:

Panels can be supplied with integrated access control features, allowing additional functionality without compromising the panel design.

- ▶ Proximity reader (FPM)
- ▶ Keypad access (COM-Vasi)
- ▶ Electronic key system (ESM)
