

VAROFLEX AUDIO

• 2-Wire • Modular • Flexible Configuration

Product Overview:

Varoflex audio door entry panels are modular systems designed for flexible configuration and reliable audio communication. Built on STR's Qwikbus 2-wire system, they are suitable for both new installations and retrofit projects. With a wide range of interchangeable modules, they are ideal for applications from single properties to multi-occupancy buildings.

Key Features:

- ▶ Modular system for flexible configuration and expansion
- ▶ Qwikbus 2-wire system for new and retrofit installations
- ▶ Compatible with 1+n and multi-wire systems (on request)
- ▶ Configurations from 1 to 16 call buttons
- ▶ Surface or flush mounting options
- ▶ Shallow installation depth for easier fitting
- ▶ Wide range of interchangeable modules
- ▶ Available in multiple finishes and RAL colours

Kit Contents:

- ▶ Varoflex panel (speaker module + call button module)
- ▶ Audio handset(s)
- ▶ Power supply unit
- ▶ Mounting accessories

Technical Summary:

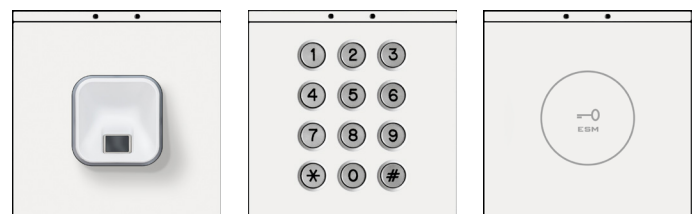

Specification	Details
System Type	Audio door entry
Wiring	2-wire Qwikbus
Configuration	1-16 call buttons
Mounting	Surface or flush
Construction	Modular aluminium housing
Installation Depth	Shallow profile
Power Supply	Dedicated PSU (included)
Finish Options	Titanium Grey, White, RAL options

Optional Integrated Features:

Varoflex panels support a wide range of interchangeable modules, allowing additional functionality to be integrated into the system.

- ▶ Keypad access modules
- ▶ Proximity / RFID reader modules
- ▶ Electronic key system modules
- ▶ Display and information modules
- ▶ Control and function modules

VAROFLEX VIDEO

• 2-Wire • Modular • Flexible Configuration

Product Overview:

Varoflex video door entry panels are modular systems designed for flexible configuration and reliable video communication. Built on STR's Qwikbus 2-wire system, they are suitable for both new installations and retrofit projects. With a wide range of interchangeable modules, they are ideal for applications from single properties to multi-occupancy buildings.
